

APHL/CDC Vaccine Preventable Diseases Reference Centers

DECEMBER 9, 2015 • 1:00-2:00PM EST • ATLANTA, GA

William J Bellini, Ph.D.

Chief, Measles, Mumps, Rubella and Herpesvirus Laboratory Branch,
Division of Viral Diseases, NCIRD,
CDC

Most viral and bacterial diseases that are vaccine preventable occur irregularly as sporadic cases or small outbreaks. These vaccine preventable diseases (VPDs) present a dilemma for public health laboratories, in that assays with performance characteristics capable of rapid and accurate detection of these illnesses are lacking in the commercial marketplace, yet the PHLs remain responsible for testing for these entities, as well as many other higher incidence agents. This basic level webinar will discuss the establishment of VPD Reference Centers capable of rapidly and accurately detecting and confirming the low incidence, low volume viral and bacterial VPDs using molecular assays, and their reporting to PHLs and CDC.

Sponsored by the National Laboratory Training Network (NLTN)

The National Laboratory Training Network is a Training System Sponsored by the Association of Public Health Laboratories (APHL) and the Centers for Disease Control and Prevention (CDC) www.aphl.org/training/nltn

Funding for this training was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written training materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government. This project is funded 100% by Federal funds.

FREE WEBINAR

REGISTRATION DEADLINE IS DECEMBER 2, 2015

- Locate the course online under Live Webinars at www.cdc.gov/labtraining.
- Follow the link to register for the course in TRAIN.
- Registration deadline is one week prior to the webinar.
- Once you have registered, you will receive a detailed confirmation letter by email.
- This webinar will be archived on TRAIN approximately 3 weeks after the live event.
- This webinar has 1000 seats available on a first come first served basis.
- If you have difficulty with the online registration process, please email labtraining@cdc.gov.

CEUs:

The Centers for Disease Control and Prevention, Laboratory Training and Services Branch, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar is approved for 1.0 hour of P.A.C.E.® credit, and has been approved for 1.0 contact hours in the General (Molecular Pathology) category for Florida Laboratory Licensees.

P.A.C.E.® Course#: 288-021-15, FL Course#: 20-495903.

Objectives:

At the conclusion of this program, the participant will be able to:

- Explain the rationale for the establishment of the VPD Reference Centers.
- Recognize the advantages to Public Health Laboratories of the establishment of Vaccine Preventable Disease Reference Centers.

Target Audience:

This webinar is of interest to public health laboratorians.

Access Requirements

To participate in this webinar, you will need a computer with internet access and speakers or a headphone to hear the audio.
